

Change the Desktop Wallpaper

- 1. Open System Settings (called System Preferences on older macOS versions).**
- 2. Select Wallpaper (or Desktop & Screen Saver).**
- 3. Choose one of the built-in wallpapers, or click Add Photo / + to select an image from your Mac.**
- 4. Click the wallpaper you want to apply.**

Change the System Language to Hindi or Gujarati

- 1. Open System Settings / System Preferences.**
- 2. Go to General → Language & Region**
- 3. Under Preferred Languages, click +.**
- 4. Search for and select:**
 - Hindi, or Gujarati**
- 5. Click Add.**
- 6. When prompted, choose Use Hindi or Use Gujarati as the primary language.**
- 7. Restart or log out and back in if macOS requests it.**

After signing back in, menus and system text should appear in the selected language where translations are available.
