Explicit Congestion Notification (ipv6tclass.ecn). 2 bits

Packets: 19716

Profile: Default

Protocols observed:

1. **QUIC**
2. **TCP (Transmission Control Protocol)**
3. **TLSv1.3 (Transport Layer Security)**
4. **IPv6 (Internet Protocol Version 6)**
5. **Ethernet II**

Description of the protocols:

- **QUIC:** A modern transport protocol used by HTTP/3 to provide secure and faster web communication.
- **TCP:** A reliable, connection-oriented protocol used for transmitting data between devices.
- **TLSv1.3:** Encrypts data exchanged between the web browser and the server to ensure secure communication.
- **IPv6:** The network-layer protocol used to route packets across the Internet.
